

# About Us

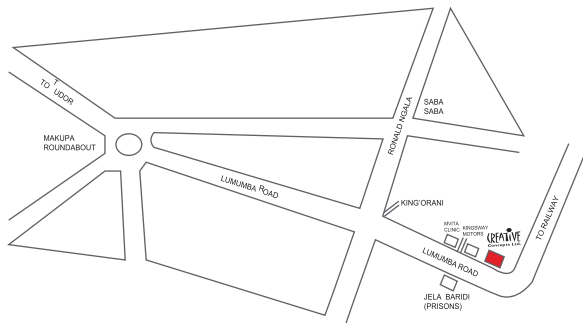

Creative Concepts has for over twenty five years manufactured signs and advertisement articles.

We are one of the leaders not only in manufacturing of signs and advertising articles, but in many business activities interconnected with the main business, such as screen printing, graphic arts, fibre glass moulding, high frequency welding, vacuum forming etc. The company has also been awarded an International Award for Quality Control & Creative Innovation by the international World Quality Commitment Convention, in the year 2002.

We are pleased to introduce our selection of granite in an array of various beautiful colours and designs. Our clients have continuously supported us over the years since we started our granite business, we have been successful in the construction, completion and refurbishment of many organizations such as Royal Court Hotel, Bank of India, Hirji Lakha and many more!

So come and visit us today for a wide range of granite material for your interiors and construction needs!

## “Creative Concept”

### **GRANITE: Natural choice for your construction requirements**

A natural product found in many parts of the world such as India, Italy, UK, South Africa, Brazil, Norway, Portugal and USA.

Being a stone that is volcanically formed, makes it one of the hardest and scratch resistant material available for various surfaces.

A genuine granite's make up consists of Quartz, Alkali Feldspar and Mica. Because of its ability to endure a lot of wear and tear, granite is mostly preferred in the cladding of many buildings across the world and thus making it particularly suitable for kitchen worktops, office counters and internal building decor.

A natural product which can be sawn, shaped and polished makes it unique in its make up, features and one of the best known of all ingenious rocks. These features make it almost maintenance free and easy to clean—simply wipe over with luke-warm water!

Choose from our selection of beautiful natural colours, with reflective qualities ideal for both large and small areas.
